The Problem Solving Process with Design

This process is used in The Design Process unit

Define

- Identify potential users
- Interview users
- Read user profiles
- Identify needs and wants

Prepare

- Connect needs and wants to specific problems
- Research how others have addressed these issues
- Brainstorm potential solutions
- Discuss pros and cons
- Identify the minimum work need to test your assumptions

Try

- Draw your product on paper
- Develop a low stakes prototype to communicate your design
- Share prototypes with potential users for feedback

Reflect

- Present to stakeholders
- Review user feedback
