

Unit 4 App Project - Student Checklist

Key Concept	Extensive Evidence
Designing Your App	☐ Your app requirements are clearly defined in relation to user needs. ☐ Your app's functionality and the features that address those requirements are described and justified.
Market Research	☐ Your market research includes specific relevant apps and their citations ☐ Your market research includes evaluation of how they meet user needs ☐ Your market research identifies specific features that made them more or less successful.
Paper Prototype	☐ The paper prototype includes multiple screens and elements, ☐ The paper prototype includes a clear and distinct purpose for each screen and elements that relate to that purpose.
Demo App	☐ Your demo clearly shows how a user would use core functions of your app ☐ Your demo highlights features that address the stated user needs.
App Presentation	☐ Your presentation describes the results of user feedback from both paper and digital prototypes. ☐ The feedback is addressed with multiple proposed improvements clearly related to the results of the user testing.
Digital Prototype	☐ Your digital prototype makes extensive use of user input ☐ Your digital prototype consistently responds to user input in ways that make sense.
